

watermarkImgBehind

(mPDF >= 4.4)

watermarkImgBehind - Specify whether to place watermark images behind page contents

Description

```
void watermarkImgBehind
```

Specify whether to place watermark images behind page contents

Note: This variable can be changed either in the configuration file `config.php` or at runtime

Note: This variable was unintentionally set to **TRUE** in the `config.php` file released with mPDF 4.4 In version 4.5 it was changed to **FALSE**

Values

`watermarkImgBehind` = **TRUE** | **FALSE**

Values

TRUE : place watermark images behind page contents

FALSE: place watermark images in front of all page contents

DEFAULT: FALSE

Changelog

Version	Description
4.4	Variable was added.
4.5	Default value changed to FALSE
