insertTOC() - Archived

(mPDF >= 1.0)

insertToC — Generate a Table of Contents - DEPRACATED

Description

void **insertToC ( )**

Note: insertToC() had to be called at the end of the document in early versions of mPDF to generate the Table of Contents. The ToC is now generated automatically when Output() is called, and insertToC() should no longer be used (mPDF >= 2.0). It is now recommended that you use TOCpagebreak() or <tocpagebreak> and TOC_Entry() or <tocentry>.

Changelog

Version	Description
1.0	Function was added.
2.0	DEPRACATED - Function called implicitly by Output().

See Also

- TOCpagebreak() - Insert a Table of Contents in the document
- <tocpagebreak> - Insert a Table of Contents in the document
- TOC_Entry() - Mark a ToC entry in the document
- <tocentry> - Mark a ToC entry in the document
